## Softwares auxiliares e ferramentas

### Servidor HTTP + PHP

#### Pilha LAMP

- [https://www.apachefriends.org/pt\\_br/index.html](https://www.apachefriends.org/pt_br/index.html)
- <http://www.wampserver.com/en/>

#### Pilha LEMP

- <https://winginx.com/en/>

### Ferramentas on-line

#### Testes rápidos em qualquer linguagem

- <https://www.tutorialspoint.com/codingground.htm>

#### Json Viewer

- <http://jsonviewer.stack.hu/>

#### Json Lint (verificador)

- <https://jsonlint.com/>

### Realizar requisições HTTP (testes)

#### Postman

- <https://www.getpostman.com/>

#### Curte console? -> cURL

- <https://curl.haxx.se/>

#### Versão online

- <https://onlinecurl.com/>

### IDEs/Editores para PHP

- <https://code.visualstudio.com/>
- <https://www.sublimetext.com/>

- <https://atom.io/>
- <http://brackets.io/>
- <https://www.jetbrains.com/phpstorm/>

## HTTP

### Mozilla.org

- <https://developer.mozilla.org/pt-BR/docs/Web/HTTP>
- [https://developer.mozilla.org/pt-BR/docs/Web/HTTP/Basico sobre HTTP](https://developer.mozilla.org/pt-BR/docs/Web/HTTP/Basico_sobre_HTTP)
- <https://developer.mozilla.org/pt-BR/docs/Web/HTTP/Overview>

## Servidor HTTP

### O que é?

- [https://developer.mozilla.org/pt-BR/docs/Learn/Common\\_questions/o\\_que\\_e\\_um\\_web\\_server](https://developer.mozilla.org/pt-BR/docs/Learn/Common_questions/o_que_e_um_web_server)

## Problemas com phpMyAdmin?

- <https://www.siteground.com/tutorials/phpmyadmin/>
- <https://www.todospacononline.com/w/2014/07/bases-de-dados-no-phpmyadmin/>

### Quer em vídeo aula?

- <https://www.youtube.com/watch?v=OaPMvrA0cA4>

## PHP

### Documentação oficial

- [https://secure.php.net/manual/pt\\_BR/langref.php](https://secure.php.net/manual/pt_BR/langref.php)
- [https://secure.php.net/manual/pt\\_BR/](https://secure.php.net/manual/pt_BR/) (geral)

### Tutorial de tudo (php)

- [https://www.w3schools.com/php/php\\_intro.asp](https://www.w3schools.com/php/php_intro.asp) (cuidado php5)
- <https://www.tutorialspoint.com/php/>

O que mudou do php5 para o php7?

- <http://blog.geekhunter.com.br/conheca-as-7-maiores-mudancas-do-php-7/>
- [https://secure.php.net/manual/pt\\_BR/migration70.php](https://secure.php.net/manual/pt_BR/migration70.php)

Melhores praticas

- <https://www.php-fig.org/>
- <https://phpbestpractices.org/>

POO PHP

Cheat Sheets

- <https://www.logicbig.com/tutorials/misc/php/php-oop-cheat-sheet.html>
- <https://www.cheatography.com/tag/oop/>

Documentação oficial

- [http://php.net/manual/pt\\_BR/language.oop5.php](http://php.net/manual/pt_BR/language.oop5.php)

Tutorial para enviar email usando PHP Mailer

- <https://www.devmedia.com.br/php-envio-de-e-mail-autenticado-utilizando-o-phpmailer/38380>
- <https://www.secnet.com.br/blog/emails-pelo-phpmailer>

Json

Documentação

- <https://www.json.org/json-pt.html>

Tutorial

- [https://www.w3schools.com/js/js\\_json\\_syntax.asp](https://www.w3schools.com/js/js_json_syntax.asp)

Realizar requisições HTTP através do JavaScript

MDN

- [https://developer.mozilla.org/en-US/docs/Web/API/XMLHttpRequest/Synchronous\\_and\\_Asynchronous\\_Requests](https://developer.mozilla.org/en-US/docs/Web/API/XMLHttpRequest/Synchronous_and_Asynchronous_Requests)

### W3school

- [https://www.w3schools.com/js/js\\_ajax\\_intro.asp](https://www.w3schools.com/js/js_ajax_intro.asp)
- [https://www.w3schools.com/js/js\\_json\\_http.asp](https://www.w3schools.com/js/js_json_http.asp)

### Outros tutoriais bons

- <https://medium.freecodecamp.org/here-is-the-most-popular-ways-to-make-an-http-request-in-javascript-954ce8c95aaa>
- [https://www.kirupa.com/html5/making\\_http\\_requests\\_js.htm](https://www.kirupa.com/html5/making_http_requests_js.htm)
